

Busy Council Session Of Wainwright M.D. 392

The Council of the Municipal District of Wainwright No. 392 met in the Council Chamber of the Municipal District on Thursday February 10th. Councillors present as follows: Councillors Fahner, Sutherland, Spencer, Dixon, Taylor, and Archibald.

Reeve Sutherland in the Chair.

Moved by Mr. Spencer that the Minutes of January 13, 1944, be adopted as corrected. Carried.

Moved by Mr. Dixon that the accounts as presented by the Finance Committee be approved for payment, amounting to \$1847.12 with the exception of J. D. Adams Co. 303 Grader for \$833.00 to be withheld until same is re-assembled and certified O.K. by the Adams Company. Carried.

Moved by Mr. Sutherland that Mr. Fahner be a committee with reference to the Oliver Young account to the Wainwright Municipal Hospital for \$179.00 and report at March meeting. Carried.

Moved by Mr. Fahner that the matter of the account from the Royal Alexandra Hospital (Mrs. R. Ramstad) for \$136.85 be referred to Mr. Strachan for investigation and report at March meeting. Carried.

Moved by Mr. Sutherland that the Pay-Sheets amounting to \$403.90 be passed. Carried.

Moved by Mr. Taylor that the Statement of Receipts and Expenditures for the month ending January 31st, 1944, be accepted as read and incorporated in the Minutes. Carried.

Moved by Mr. Sutherland that the correspondence from the Bank of Montreal dated February 1st, that interest rates on loans at that date to Municipal Districts had been reduced from 5% to 4½%, be received and filed. Carried.

Moved by Mr. Archibald that the report of Audit as at December 31st 1943, from Messrs. Winspear and Hamilton Co., auditors, as read, be received and that the Reeve reply pointing out the several corrections as noted. Carried.

Moved by Mr. Archibald that the Secretary obtain from School Lands Branch, Department of Lands and Mines a list of all parties having School Lands under Agreement of Sale showing their present standing, this being for taxation information only. Carried.

Moved by Mr. Sutherland that the applications for compromise settlement of agricultural advances as presented by the Secretary be approved. Carried.

Moved by Mr. Sutherland that the application for compromise settlement of E. Messier as to his municipal seed grain indebtedness NE 15-44-5-4, be approved. Carried.

Moved by Mr. Fahner that the offer of T. Roberts to purchase building on NW 6-42-4-4 for \$75.00 be accepted and that Mr. Roberts be allowed rental of the Pichard House in Edgerton until May 1st, 1944. Carried.

Monthly Meeting Of Local W.I.

The regular monthly meeting of the local W.I. was held on Thursday last at the home of Mrs. J. Stinert, Mrs. R. Greer, pres., in the chair. One new member joined.

Following roll-call, Mrs. W. Bruner was appointed convener for the packing of ditty bags, Mrs. Michon and Donaldson to be her assistants.

A young sailor boy of 18, whose home was in Winnipeg, wrote thanking for a ditty bag, and a sum of \$23.00 was turned in for this fund from the raffle of Christmas chocolates donated. A turkey donated by Mrs. C. Horn also realised \$12.05 for ditty bag fund.

A box of "blocks" for quilts was received from the Red Cross, and wool was given out for knitting to be sent to the Navy League.

Eight dollars to be used for needy purposes was found enclosed in a letter from "A Friend." Thanks a lot!

It was resolved that a cheque for \$5.00 be sent to the Federal W. I. emergency fund.

The next meeting will be at the home of Mrs. Kowalchuk at 3 p.m. on March 9th.

Meade Made Choice Of C.C.F. Convention

Despite wintry weather that threatened to turn into a blizzard at any time, sixty-four C.C.F. delegates from all parts of the provincial constituency of Wainwright gathered on Saturday last to choose a "people's candidate" to carry their standard in the next provincial election. After two closely-contested ballots, their choice went to Mr. M. D. Meade of Wainwright. The other nominees were Mr. Stuart Wright of Hughenden, and Lieut. Ken. Tory, formerly of Wainwright and now stationed at Currie Barracks, Calgary.

Mr. Meade is principal of the Wainwright high school, and holds degrees of B.A. and B.Ed. from the University of Alberta.

Alderman H. Ainlay of Edmonton provincial president of the C.C.F., who attended the convention, addressed a public meeting at night. In his remarks to this gathering he re-defined democracy in terms of a decent standard of living, and a government controlled by the people, as contrasted with unemployment and a government controlled "from above". Mr. Ainlay pointed out that the Liberal party has not held a policy-forming national convention since the present prime minister was chosen leader of that party in 1919. The speaker also outlined the very important place that co-operatives would hold under a C.C.F. regime.

Mr. Meade in his address stressed what a provincial government in the hands of the C.C.F. could accomplish in the fields of health, education, development of natural resources, increased public works programmes, and agricultural improvement. He called attention to a recent statement by the Hon. Ian Mackenzie to the effect that only the provinces have the right to legislate in matters of public health.

Mr. H. E. Spencer, C.C.F. candidate in the federal constituency of Battle River, listed as the four essentials of a decent life: health, education, markets, and prices for farm products, and social security. He indicated how closely interwoven these four fundamentals are.

Mr. T. Sanders of Irma, president of the constituency association, was chairman of both meet-

To Issue Fool Proof New Gas Ration Books

Issuance of fool-proof gasoline ration books is to be made for the license year opening on April 1st, according to information received by officials of the Alberta Motor Association.

As in former years, the "AA" ration books will be issued by the provincial authorities when the new licenses and stickers are obtained.

The ration coupons will be on paper specially manufactured for the federal rationing authorities. They will be colored according to the motorist's category. Another requirement which is that drivers will be required to write the number of their vehicle across each coupon before the service station operator can supply them with gas.

The step is designed to prevent the wide distribution of loose gasoline coupons reported in some provinces. Under the plan it is believed that it will be difficult for any person to present a detached coupon.

Death and Funeral Of Mrs. Mary Bailey

On February 8th, Mrs. Mary Griffiths-Bailey passed peacefully away at the home of her son, Oliver G. Griffiths in town.

Mrs. Bailey was born nearly 82 years ago in Rolvenden, Kent, England. She came to this country in 1910 and lived for a time in Manitoba at Carberry. Later the family moved to Saskatchewan and in 1919 to Alberta. Since that time she has lived in and around the city of Edmonton.

Always—bright and cheerful through her sorrow and suffering she was a worthy example to those who knew her. Her faith in Christ for many years remained steadfast during the dark hours and made her passing beautiful and one to be remembered.

She leaves to mourn her loss six children, Mrs. E. J. Sawers, Mrs. H. P. Stamp both of Edmonton; Mrs. C. Bailey, of Sylvania, Sask. Rev. E. J. Griffiths, Salem, Ore. U.S.A. and Oliver G. Griffiths, of Wainwright. Also ten grandchildren and three great-grandchildren.

Floral tributes were received from The Family, Mr. W. H. Girling, Mr. F. C. Lukins, Mr. and Mrs. Leigh Currie, Mr. and Mrs. Ivan Currie, Mr. and Mrs. George Hardy Ivan and Allen, Mr. and Mrs. H.T. Coutts. The Young People of the Presbyterian church.

Interment took place in the Wainwright Cemetery with Rev. Brabant, of St. Thomas (Ang.) church officiating.

Nine Guest Meals Allows Hostess Coupons

It may be for Mother or Aunt Matilda, or second cousin Elizabeth or the friend of a friend, the serviceman on 48, 72, or 96 hours leave collects his special ration card before leaving the post. But this special ration form, presented by military house guests to hostess, is the wartime visitor's card.

It means that when a hostess has served nine meals she can exchange her ration documents at the local ration board for one coupon for sugar, tea or coffee or preserves, for two coupons for butter or four coupons for meat.

Nine might be called the code number, for not until she has served nine extra meals or multiples of nine, such as 18 and 27 is she able to exchange documents for coupons.

But this means that a serviceman on leave needn't cause a subdivision in the family's ration allowances these days.

Personal discharged from the forces after November 1, 1943, are entitled to a clothing allowance of \$65 as part of their discharge grant.

Mrs. O. Griffith of Wainwright acted as secretary of the convention, while the credentials committee was in charge of Mr. Wilfred Sanders of Irma. Mr. Lars Paulson of Wainwright headed the elections committee.—J.P.

"Farm For Victory" Committee Is Busy

A meeting of the above committee for the Wainwright Zone, was held on February 6th, those present being, D. Sutherland, chairman, J. C. Ford, E. R. Fay, R. Garneau, A. Archibald, R. Hisset, E. Pittman, Fred M. Ford and Mr. T. W. Townley-Smith, D.A.

Minutes of the previous meeting were read and adopted on motion by Fay and Archibald.

Mention was made that Mr. Jack Crawford had been appointed contact man in place of George Murray who has left town.

Mr. Townley-Smith reported his arrangements with a National Film Board operator to have a series of educational films shown throughout the district at the following points: Feb. 14—McCafferty 3 p.m., Edgerton 8 p.m.; Feb. 15—Doe 3 p.m., Chauvin 8 p.m.; Feb. 16—Ribstone 3 p.m., Heath School 8 p.m.; Feb. 17—Gilt Edge Hall 3 p.m., Irma 8 p.m.; Feb. 18—Battle Heights 3 p.m., Greenshields 8 p.m.; Feb. 19—Rosedale Hall 3 p.m.

After discussion it was moved by J. C. Ford and seconded by E. R. Fay that we approve of the action taken by the district agriculturist in arranging the above program.

The district agriculturist also reported regarding the proposed federal plan for 1944 farm production. He stated that the proposed quotas had not been materially changed for the whole Dominion but expressed regret that the figures had not been broken down into provincial quotas by the Federal body therefore, very little assistance could be given to the farmers by any provincial or zone committee in deciding their 1944 operations.

After lengthy discussion on Mr. Townley-Smith's report and expression of regret and dissatisfaction by the members present that something more definite had not been brought forward by the Federal body, it was finally moved by E. R. Fay and seconded by R. Garneau.

WHEREAS the Federal production plan for agriculture has not been broken down provincially, and

WHEREAS the plan itself calls for very little change in any particular item affecting this area, this committee feels that no specific leadership can very well be given to the farmers by this committee and this committee regrets that a more detailed plan has not been drawn up and urges the provincial government to request the Federal government to draw up more definite plans in future, the same to cover a longer period of time than one year. Satisfactory planning of agricultural production in our opinion can only be carried out if prices are guaranteed and stabilized for a period of years.—Carried.

A lengthy discussion followed on the warble fly and methods of combating same.

Moved by J. C. Ford and seconded by A. Archibald that the Secretary have 20 copies of the minutes of this meeting typed and copies forwarded to members of the zone committee also the newspapers in this Municipal District.—Carried.

Moved by R. Garneau and seconded by A. Archibald that we adjourn the next meeting to be called by the Chairman and Mr. Townley-Smith when they deem it necessary.—Carried.

Canned Tomato Juice Available

Ottawa.—Vitamin conscious, the Food Administration, Wartime Prices and Trade Board, has stipulated that retailers may sell an increased quota of 5 percent over tomato juice stocks allotted them, during February and March.

The current increase is designed to provide consumers with additional tomato juice during a period when other foods containing similar vitamin values are not as plentiful as in the early summer months.

A soldier can't get along without water. Three War Savings Stamps will buy a water bottle.

Good boots are essential to the comfort of our fighting forces. They cost \$4.50. Twenty War Savings Stamps will buy the boots and a ball-bearing for a tank!

Edgerton Red Cross Concert and Dance

The Edgerton Red Cross held a very successful Concert and Dance on Friday February 11th.

Even the weather took a turn for the better in order that this worthy cause might benefit. A hearty vote of thanks is certainly due to all those who so willingly gave their time and talents towards making a very entertaining evening.

Mrs. Stratton deserves special mention for her supervision and Mrs. G. E. Miles and Mr. G. C. Welsh also did their best to fill in when the Rev. R. Clegg developed a very bad throat at the last moment and was unable to sing. Last reports are that the effort will clear well over \$100.00, thanks to all in town and country who turned out in such goodly numbers to do their bit for our boys over there.

Red Cross Giving Novel Evening Tunes

As an introductory to their big Red Cross drive for this district a meeting was held on Friday last with Mrs. Geo. Clark as chairman, and arrangements were completed for the big skating carnival and moccasin dance to be held on the rink on Tuesday evening next, commencing at eight o'clock sharp. Judging of costumes is slated for 9:15 p.m.

A novel feature of the affair is to be a "slave auction" when the services of several business men will be offered against the high bids for Red Cross pledges in the forthcoming drive (one 210-lb. gent has already offered to bake an angel-food cake in the kitchen of the person who is the top "pledger"; and the next highest bidder will get their chesterfield lounge vacuumed free of charge). Sure, there will be lots of fun, so arrange to be on hand on Tuesday next at the rink and watch these wonderful offers of free help against your pledges of contributions.

Hot dogs and coffee will be obtained at the booth, and the moccasin dance which follows will prove most enjoyable.

Rest Period Snacks Help Wartime Workers

Workers need a nourishing snack during their rest periods—do they? That \$64 question turned up during a regional conference on industrial health at Kitchener, Ontario.

"Is it wise," asked a personnel official, "for employees to take snacks in the morning before lunch?"

"Snacks shouldn't be necessary," said another member of the audience. "Three square meals a day will keep workers in the pink."

"Snacks during rest periods means a lot to health and efficiency," insisted a plant nurse. "But they must be served with discretion—not too close to lunch in the morning—not too close to quitting time in the afternoon."

"And the food should be nourishing," added a plant doctor. The "ayes" carried the day for snacks with such evidence as less fatigue due to monotony and routine, more energy, improved health and efficiency. And they get potent support from the Washington Committee on Nutrition in Industry:

"The practice of serving food between meals to workers has given good results and is recommended. Milk, fruit and tomato juice are to be preferred as beverages and other foods which are served should include the necessary nutrients. Thus when bread is served it should be enriched with white bread or a whole grain product."

The best time for a light snack, according to the experts, is about an hour-and-a-half before lunch. In the afternoon, about two hours after lunch. (Of course, the size of the snack and time eaten depends on hours of work at the plant, type of labor involved and kind of meals eaten at home. If work starts at an exceptionally early hour, snack time would naturally be earlier. Those doing heavy work will require more to eat, as will those who eat a light breakfast, or skip it altogether.)

Hospital Board Sets Up Appropriations for Year 1944

The regular monthly meeting of the Board of Trustees of the Wainwright Municipal Hospital District No. 17 was held at the Hospital, February 12, 1944. Members present were: Trustee Gould, chairman; and Trustees Mrs. Washburn, Gardiner and Oxy.

The minutes of the last regular meeting were read and on motion of Trustee Gardiner were adopted.

Moved by Trustee Oxy, that secretary interview the Council of M.D. Wainwright No. 392, regarding the possibility of including the hospital annual financial statement with the annual statement of the Municipality. Carried.

A circular letter, which had been forwarded to the Supervisor of Municipal Hospitals from Stettler Hospital, regarding increasing Hospital Grants, was read. Moved by Trustee Oxy that secretary write the Supervisor expressing the endorsement of the above circular letter by this Board, owing to the increased cost of maintenance. Carried.

Moved by Trustee Mrs. Washburn that the requested report of the Workmen's Compensation Board be referred to the Committee of the Alberta Hospital Association, and for that committee to act on our behalf. Carried.

Estimates for the year 1944 were presented and on motion of Trustee Gardiner were accepted; secretary to forward same to the minister of public health for approval. Carried.

REQUISITIONS FOR 1944

M. D. Merton No. 451	24.04
M. D. Minburn No. 453	250.70
M. D. Wain. No. 392	7,544.11
Town of Wainwright	2,435.70

gineer and Janitor, Supplies, 100.00 Fuel, 820.00; Light and Power, 700.00; Freight and Express, 100.00 Maintenance - Buildings, 1,500.00 Furniture, 500.00; Dry Goods, 300.00; Total Running Cost, 21,300.00. Capital: Repayments - Principal, 1,750.00; Interest, 385.00; Total \$23,435.00.

Moved by Trustee Mrs. Washburn that the following Insurance Policies be renewed: Policy No. 403480. Carried.

The Finance Committee reported they had examined the bank book and ledger and found same correct and on motion of Trustee Gardiner the report was accepted. Carried.

Matron's report for the month of January, 1944 was as follows:

Patients admitted	72
Deaths	3
Classification of Patients Admitted	
Medical	42
Surgical	11
Obstetrical	11
Infants Born	8
Total Hospital Days	537

Moved by Trustee Gardiner that Matron's report be accepted. Carried.

Moved by Trustee Mrs. Washburn that accounts amounting to \$1,860.00 be approved and cheques issued. Carried.

Moved by Trustee Mrs. Washburn that the meeting adjourn; the next meeting to be held March 11th, 1944 at 1 p.m. Carried.

War Stamp Drive Going Over Nicely

The Food Industry War Savings Stamp Drive completed the first week of their program with outstanding success. The Northern Alberta quota for the month of February is \$40,000.00, and sales of stamps already reported total \$16,286.00, with many firms not yet heard from. Some of the smaller merchants are doing an excellent job in this campaign. One store, operated by a merchant with out any additional help, reports over \$10,000.00 in Stamp Sales for five business days, while some of the larger organizations report sales several times this amount.

All country merchants are reminded that when they purchase Stamps from the Bank of Post Office, a voucher must be obtained and forwarded to National War Finance at Edmonton, so that they may receive credit for their endeavors in the campaign.

Give Up Hopes For More Sugar

Ottawa.—Because the world sugar supply is extremely "tight", there is no hope for any increase in the regular ration of sugar, nor in the rationing sugar allocation for this year, S. R. Noble, Sugar Administration, Wartime Prices and Trade Board has stated.

Mr. Noble warned against misstatements, warehouses are filled with sugar. This is quite true; sugar is an annual crop. Canada takes delivery when she can get it, and storage stocks are based on actual needs. If there were no storage stocks the ration would have to be cut.

Furthermore he pointed out that Canada depends on importing four fifths of her sugar allocated from a world supply under agreement of Canada, Great Britain and the United States. This world pool has been greatly reduced. Big sugar exporters, the Philippines and Java are in Jap hands leaving the West Indies as substantial exporters. Demands on the available export will grow and increase with liberation of each country from the enemy.

"When Liberty comes again, Europe may desperately need more sugar than will be available", he said.

How's Your Subscription Label?

CARD OF THANKS

We wish to take this opportunity to thank our many friends especially Dr. Middlemas for their kindness and sympathy in the loss of our dear mother.

THE GRIFFITHS FAMILY

Trucks Are Not For Joy Rides

Edmonton.—Affirming the need to conserve truck equipment, gasoline and tires, R. Bruce Hall, Enforcement Counsel of the Wartime Prices and Trade Board in Alberta, has issued a statement to remind truck operators that there are penalties under the law for using trucks for joy rides, and pleasure purposes such as going to dances.

"There is evidence that trucks are being used for unessential purposes", Mr. Hall stated. "Use of trucks in an emergency is condoned by the Board. But wasteful and unnecessary use of trucks is distinctly contrary to the regulations which prohibit the use of trucks, including farm trucks, for pleasure purposes."

T.C.A. Loads Heavier In '43 than '42

Winnipeg, February.—Final traffic figures issued by W. F. English assistant vice president, show substantial increases for Trans-Canada Air Lines in 1943, as compared with the year before. Passengers increased by 37,555; the mail load was heavier by 1,417,795 pounds; and air express was up 458,768 lbs. double that carried in 1942. Figures for the two years are as follows:—Passengers, 142,001 in 1943, as against 104,446 in 1942; air mail, 3,726,607 pounds in 1943, as against 2,308,812 in the preceding year; air express, 821,605 pounds, as compared with 362,837 pounds.

WAINWRIGHT, WEDNESDAY, FEBRUARY 16th, 1944

HOLD YOUR

VICTORY BONDS

Demands upon individual finan-
cial resources during wartime are
naturally greater than in peace-
time, however, earning power dur-
ing this war has been much greater.
When the war is won there will
necessarily be a transition from
wartime to peace industry re-
quiring drastic occupational adjust-
ments. During this period your
Victory Bonds will be an invalua-
ble asset in surmounting the diffi-
culties of re-adjustment.

In addition to the actual savings
on bond investments, the three per
cent rate is much higher than on
bank deposits or savings of a simi-
lar type, therefore bond values are
stationary but are continuously in-
creasing.

When the men and women re-
turn from the fighting fronts, a
"nest egg" will be established to
assist them in re-habilitating them-
selves in normal occupation with-
out the necessity of going into debt
as war bonds are gilt-edged securi-
ty for loans.

Bond buying helps to control the
individual urge to buy things which
are not essential, thereby assisting
in control of inflation. The pos-
session of bonds also establishes a
sense of security and thrift which
does not ordinarily exist when you
spend from day to day.

VICTORY BONDS

LIQUID ASSETS

Many people who are success-
ful and prosperous in their own
affairs become confused in terms
and matters of finance outside
their own particular sphere of en-
deavor. Misunderstandings occur
and in some cases, financial loss
and confusion is the result.

Lots of uninformed bond pur-
chasers think that they are "giv-
ing" their money to the country.
Some even think they "owe" the
value of the coupons on the dates
when they may be "clipped" and
cashed—such misunderstanding is

a deterrent to further purchases and
has the exact opposite effect as re-
gards the feeling of security which
Bond purchasers should establish.

Actually, a Victory Bond is the
soundest "liquid asset" which any-
one can possess. It will establish
credit for the holder, you can "bor-
row" money on it, you can "sell"
it for immediate cash requirements
or you can "hold" it, and receive
the highest rate of interest avail-
able for any type of savings. In
short, you lend so much; the Gov-
ernment pays you so much, in so
many years time; in the meantime
you will be paid so much every six
months for the use of your money.
If you need money, you can sell
your Bond or borrow on it. It's
very simple and convenient.

You have often heard the phrase
"His word is as good as his bond."
Well—your Bond is as good as the
combined National resources of
Canada and the integrity of the
Government of Canada.

CONTINUATION OF

M D Wainwright No 392

(Continued from page 1)

Moved by Mr. Sutherland that
By-Law No. 40 concerning the sale
of the SE 21-44-4-4 pass its third
and final reading and the Secretary
prepare Agreement of Sale forms. Carried.

Moved by Mr. Dixon that By-
Law No. 50 concerning the sale of
the NE 4-45-3-4 pass its third
and final reading and the Secretary
prepare Agreement of Sale forms. Carried.

Moved by Mr. Taylor that By-
Law No. 52 concerning the sale of

the NE 20-45-3-4 pass its third
and final reading and the Secretary
prepare the necessary Agreement of
Sale forms. Carried.

Moved by Mr. Sutherland that the
final passing of By-Law No. 51
concerning the sale of the SE 35-
44-5-4 be tabled until the March
meeting. Carried.

Moved by Mr. Fahner that the
Secretary write Mr. B. Dallyn that
an offer had been received for the
purchase of the E 26-45-2-4
and that as he has this land leased
he be given the first chance to pur-
chase same. Carried.

Moved by Mr. Archibald that the
Secretary write Mr. A. A. Long that
his offer to purchase the NE 18-
45-3-4 at \$2.00 per acre be accept-
ed, the Municipal District reserv-
ing five acres on the West side of
said land for the purpose of a
gravel pit. On receipt of the said
purchase price Secretary to prepare
the necessary By-Law for its first
and second reading. Carried.

Moved by Mr. Fahner that the
following Leases be approved:
SE 26-42-1-4, J. Nephman; N 1/4
12-47-5-4, W.M. Templeton; NW
16-42-3-4, R. McCluskey; E 1/2
6-46-6-4, W. F. Woodward; SE
18-42-2-4, H. Morrison; N 1/4 18-
43-2-4, George Miller; SE 17-
43-2-4, R.C. Tizard; S 1/4 16-43-
6-4, R. Denison; SE 12-47-5-4
H. Sorenson. Carried.

Moved by Mr. Sutherland that as
a petition has been received from
Rate-payers in Township 4-54 ex-
pressing their desire that said
Township and Range not be in-
cluded in the Doctors' Agreement,
and as such names have been check-
ed against the Assessment Roll and
found such petition in order that
Township 45, Range 3 be deleted
from the Doctors' Agreement which
is attached to and forms part of
By-Law No. 43 of this Municipal
District. Carried.

Moved by Mr. Spencer that as
Township 41 Range 6 has been
transferred and made part of the
M.D. of Provost No. 362 as per
Ministerial Order dated January 6,
1944; that the S 1/2 of Township 42
in Range 6 be deleted from the
Doctors' Agreement which is ap-
pended to and forms part of By-
Law No. 44 of this Municipal Dis-
trict. Carried.

Moved by Mr. Taylor that the
Reeve and Secretary be a commit-
tee to approach the Wainwright
Hospital District for the purpose of
a rearrangement of territory of
Trustees for the said Hospital Dis-
trict. Carried.

Moved by Mr. Spencer that this
Council endorse the agreement
made by the Public Works Com-
mittee with T. Kirwin, Road Con-
tractor, to gravel the nine miles
South from Highway No. 14 to
Chauvin, at 400 yards of gravel to

the mile at \$1.68 per yard except-
ing blade and checker work. Car-
ried. (Mr. Archibald dissenting).

Moved by Mr. Archibald that the
Secretary get in touch with Mr. Car-
lisle to see if he is available contract
road work for 1944 season. Carried.

Moved by Mr. Archibald that the
cost of living bonus paid to the
office staff be discontinued. For
the motion: Mr. Archibald; against
Mr. Sutherland, Dixon, Fahner,
Spencer and Taylor. Motion lost.

Moved by Mr. Archibald that all
material for office use, with the ex-
ception of postage, over the amount
of \$20 per month be approved by
the Council before order is given.
Carried.

Moved by Mr. Dixon that Mr.
Spencer be a committee to ascer-
tain the prices for the building of
a vault. Carried.

Moved by Mr. Fahner that the
Secretary write the department of
agriculture, Dominion of Canada to
ask what disposition has been made
of the application for assistance un-
der the P.F.A. Act as to Twp. 42
in Rge. 1, 2 and 3, Twp. 43 in Rge
6, and Twp. 44 in Rge 9—Carried.

Moved by Mr. Taylor that the
Council do now adjourn to meet
at the call of the Returning officer
on Monday March 13th, 1944, as
provided for in the Municipal Dis-
tricts, Act. Carried.

A WEEKLY EDITOR
LOOKS AT

Written specially
for the weekly newspapers of Canada

Welcomed by the Bench and Bar
when he presides over the Supreme
Court for the first time on Feb-
ruary 1st, Chief Justice Rinfret
said the near future "might bring
new relationships between the in-
dividual and the state which would
call for development of new con-
cepts of jurisprudence by the
Bench and Bar." The Swedish
Minister to Canada still has no
headquarters in Ottawa other than
rooms at the Chateau Laurier.
Still in the "idea stage", considera-
tion for which was recommended
by the reconstruction committee,
is a national zoological garden for
Ottawa. Because they were fed

up last session on the difficult
problem in the capital, Chas.
Johnson and Robert Fair, Social
Credit members from Alberta,
brought their wives along this time.

A standing committee of the
House will work on simplifying
and speeding up business. The
Munitions Department plans buy-
ing 300 buses in the United States
for resale to essential transpor-
tation services, with deliveries likely
for 1944 or early in 1945. The
faintest star yet known, a mere
114,465,559,600,000 miles away,
though reported by some larger
scopes, can't be seen by the Domi-
nion Observatory in Ottawa with
its telescope lens only 15-inch.

The low death rate of less than
25 per 1,000 Canadian soldiers
during the official malaria season
in the Mediterranean area can be
traced, Canadian Army officials
say, to Mepacrine tablets. Over
two million of the little yellow
tablets were issued. These are
among the little things you don't
hear much about in the big flurry
of war.

Recently movie big-wigs were
in Ottawa to preview "Madame
Curie" for Dean C. J. Mackenzie,
Acting President, National Re-
search Council, and staff at the
National Research building. Plans
are about ready for the gala pre-
miere of the great film in Ottawa
this month. Stars are, of course,
Greer Garson and the Canadian-
born Walter Pidgeon. Canada is
now the world's largest producer
of radium, so we are especially
grateful to the Curies. The gov-
ernment is lending its name to the
premiere. Walter Pidgeon will be
remembered for his help in putting
over Canadian Victory Loans.

This should help for the post-
war. Under Order-in-Council the
Department of Labour now has
authority to extend assistance to
provincial governments to pep up
apprenticeship training. This is
designed to relieve in any way the
responsibility, primarily, of in-

dustrial and trade unions. An ap-
prentice is defined as: "a person
at least 16 years who enters into a
written agreement with an employ-
er to learn a skilled trade requiring
a minimum of 4,000 hours con-
tinuous employment and which
provides a programme of practical
experience and related technical
instruction for such person." for
the fiscal year 1944-1945 the Domi-
nion fund available for provinces
is not to go higher than \$250,000,
but for later fiscal years is to be
raised to a million dollars a year.
Suitable trade training for young
folk, is the idea behind it all.

You help me and I'll help you.
Munitions & Supply reveals that
the temporary restrictions on the
delivery of coal have been suspend-
ed in the four western provinces.
It has become possible to ship
greater amounts of western domes-
tic coal to shortage areas in near-
by western States to relieve pres-
sure on their mines. But in view of
our still heavy requirements in
Eastern Canada for coal from the
United States, this reverse move-
ment in western Canada is quite a
pleasing development.

Of interest to farmers, etc.: Onta-
rio's Agricultural College reports
that many cases have been en-
countered where piglets had died,
due to having received excessive
doses of iron given for the preven-
tion of anaemia. Sheep shearing
comes about the latter part of May
in the West, a little earlier in the
East, and the Department urges
those having shearing equipment
to coddle it properly, owing to me-
tals shortage; those who intend to
purchase same next spring should
order without delay, and it is nec-
essary to have a permit from the
War-time Prices and Trade Board.

Starting plants early enough in
Spring by sowing seed indoors in
window boxes or hot-beds is im-
portant, and as a rule from six to
eight weeks prior to time when
such plants can be set out in the
field will be about right, says the
expert at Central Experimental
Farm, Ottawa. The War-time
Food Corporation has re-established
central control over shipment of
potatoes from Eastern production
areas, similar to that prevailing in
1943. Carload lots will be diverted
to deficiency areas and allocated
by the foods officer, or local re-
presentative, at point of delivery.

A little of this and that: Restr-
ictions on certain metals used for
builders' finishing materials like
cabinet locks, padlocks have been
lifted, and this now applies to gly-
cerine as well. It is announced
that all troops who moved into
Kiska last August are back in Cana-
da. National Selective Service re-
gulations, amended, now provide
that all civilians who were re-
quired to change their occupations for
more important war jobs will even-
tually be back in their original
jobs if they want to do so.

Throughout the nation, in a large
number of centres, groups are co-
operating with the educational
campaign launched by the Division
of Venereal Disease, Department of

Pensions and Health. In Sask-
atchewan, for instance, the Junior
Chamber of Commerce, with its
many affiliations is spear-heading
the attack and organizing com-
mittees everywhere. Undisguised
facts of the terrible scourge which
exists everywhere are going to be
brought into the open, in a way
never before attempted, and it is
hoped the cold, stark light of pub-
licity will prove the old adage that
"prevention is better than cure."

RED CROSS NOTES

The National Red Cross Cam-
paign will be held the first two
weeks in March.

Never has the need been so great,
as the tempo of war steadily in-
creases. Already the Canadian casu-
alty lists grow longer, and the in-
vasion of the continent is im-
minent. Alone of all agencies the Red
Cross are equipped to meet the
dark tide of human suffering. The
Red Cross boxes are the one assur-
ance of health for our boys who are
Prisoners of War.

It is urgent, even vital, that our
givings be greatly increased. We
are asked only to give money; our
boys give themselves. Let us strive
to be worthy of them. Your gift
may save a life, maybe more. Be
more than generous, be sacrificial!

Mrs. Geo. Clark will again be in
charge of the local drive, with Mrs.
Baxter as Asst. Convenor, Mr. Gor-
don Graham as Convenor of coun-
try districts, and Sgt. Udell in
charge at the camp.

The country districts are asked
to organize as soon as possible,
sending the names of their canvass-
ers to Mrs. Hannah, president, or
Mrs. Washburn, Secretary. Supplies
may be obtained from Mrs. Hannah
or Mr. Graham.

Fellow citizens of Wainwright
and District, let us get behind this
drive 100%. We are proud of our
Wainwright lads; let us make them
proud of us!

"People Love Facts" a program
of interesting data, illuminating
facts about our everyday lives, is
heard over CICA every Wednesday
evening at 6.00 P.M. The old adage
about being stranger than fiction is
born out here in no uncertain
terms, and if you think that fifteen
minutes of facts might not be
highly entertaining then we're
sure you'll change your mind after
hearing this show.

Listen Monday thru' Friday at
2.45 P.M. for the sparkling "Aunt
Jemima" show. It's five minutes of
well-planned entertainment fea-
turing your favorite tunes by the
Aunt Jemima Chorus—and a few
jolly words from Aunt Jemima her-
self.

The Chinese thought of it first!

THOUSANDS of years ago, the Chinese
used a form of gunpowder—a flaming
chemical of defence dumped over battle-
ments upon an invading enemy.

And from this age-old beginning has
evolved smokeless powder made from high-
proof alcohol. Like the airplane, it has
done much to further the progress of
mankind—but in evil hands it has meant
tyranny and enslavement.

As the tempo of this war for liberty
increases and our armed forces in all parts
of the world swing to the offensive, more
smokeless powder for our shells, bombs,

depth charges and torpedoes is a vital
necessity.

And because we have vast fields of grain
and the facilities to convert them into
high-proof alcohol, the United Nations
shall have an overwhelming superiority of
fire-power to pulverize the enemy into
unconditional surrender.

Thus, China's primitive powder of
defence has finally developed into the
weapon to drive tyranny forever from this
earth. In a way, it is the hand of ancient
China reaching out in defence of free
mea everywhere.

Alcohol for War is also used in the manufacture of Synthetic Rubber, Drugs and Medicines,
Photographic Film, Lacquers and Varnishes, Drawing Ink, Compasses and other Navigation
Instruments, Plastics, Shatterproof Glass and many other products. Every Seagram plant in
Canada and the United States is engaged 100% in the production of high-proof Alcohol for War.

Farm Notes

Horse Sense in Maintaining Horse Health

Veterinary authorities point out that in this mechanical age there are farms on which the horse is one of the most neglected animals. Horse blankets are almost unknown, and the curry comb and brush have long since disappeared. About the only redeeming feature on some farms is that the horses are allowed to run out, so they have the opportunity, at least partially, to take care of themselves. Yet the horse is still one of the most valuable sources of farm power. Proper nourishment is extremely important to the horse's well-being, and is one of the three essentials in maintaining the health of the horse. The second essential is that when a horse is not working he should be given the run of the pasture, or a lot large enough to afford ample exercise. The third is that the horse should have a good shelter to protect against wind and cold.

Greatest Threat to Beef Production

The health of beef cattle depends first upon the selection of strong, healthy breeding stock; second, the proper feeding with a better understanding of nutritional requirements, particularly as to minerals and vitamins in a balanced diet. Fat-producing feeds are not necessarily sufficient to produce a healthy state unless judiciously supplemented by these essential aids. Third, proper sanitation and hygiene throughout the life of the animal. Fourth, the prevention of all contagious or infectious diseases which will respond to timely vaccination.

Owners should be vigilant at all times to recognize any disease conditions that might suddenly or gradually enter the herd, so that prompt measures can be taken to check the spread of these diseases, thus protecting the remainder of the animals from infection, and preventing needless losses. Efficient beef production is more important to the nation this year, than it has ever been before. Live-stock diseases are the greatest threat to beef production at this time. Only by constant vigilance can disease losses be kept down, and production kept up.

It is important that sows be supplied with green forage or fed a

Cowboy Soldier

SYNOPSIS OF PRECEDING CHAPTERS

A cowboy from the Alberta foothills, deciding there is a much greater task on hand than riding the range, joins the Canadian Army (Active) and takes his training at Camrose Basic Training Centre and A.16 Canadian Infantry Training Centre, Currie Barracks.

Just before leaving for the east on his way overseas he marries Miss Edith, the school teacher who presides over the little country school-house close to the ranch where he works. Then, as a wedding gift, Ex-hoss tells him he is giving him half interest in the ranch as a wedding present and Miss Edith is going to live at the ranch until his return from overseas.

We now find Johnny headed east as he continues his story.

CHAPTER 8

I never was one to do much travelling and that is maybe why I really enjoyed the trip right across country from Calgary to this east port where we are waiting to go overseas.

Before I joined up most of my travelling was done by cow pony while hazing dogs from the ranch up the backroads to the Calgary stockyards or hightailing it by jalopy to the small stampedes where a fellow can pick up a little loose change by bronc riding or calf roping.

The first part of the journey down here was a little monotonous what with great stretches of prairie and all those little wayside stops but after we got by Winnipeg we really started to see new sights.

A few fellows in our car had been east quite a few times and knew all about the country but there were lots of chaps like myself who hadn't been out of Alberta before and it was quite a trip; especially seeing the Great Lakes and the Lakehead ports and the big eastern cities for the first time.

But strictly between you and I

feeding oil during the entire nursing period.

During 1943, the Canadian creamery industry not only produced more butter than ever before but also made substantial improvements in quality. In Canada as a whole, 84.75 per cent of all butter graded was found to be of First Quality, or 3.15 per cent greater than in 1942.

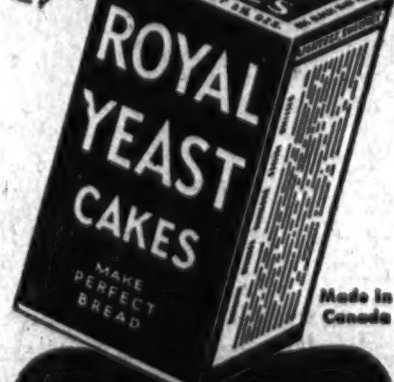

Trials conducted at the Dominion Experimental Station, Harrow, Ont., showed that the feeding of steeped alfalfa to laying hens resulted in considerably increased egg production in both summer and winter, as compared with hens that were given no green feed.

the easterners can keep their part of the country. Its alright to go travelling through but give me the prairies, and the foothills every time. And, brother, already I'm longing for another look at a real western sunset with the sun setting behind the Rockies.

Of course here, on the east coast, where we are now, you see the sunrise over the Atlantic and its really something but I'm far from being a seafaring man and I can't get enthused about it like I can about a prairie sunset.

There is one thing about the army that always sort of amazes me because I've spent all my life sort of planning what I was going to do next. Take this moving for instance. You get told to move at the last minute then away you go. Now that we are here we know we're going overseas some day but which day is still a big secret and will probably remain one.

Of course all this is a mighty fine idea. No matter how much you try to drill fellows not to talk there will always be someone who will write his friend or sweetheart and tell them for instance that we're sailing next Saturday. Those folks just pass the word without thinking and then the ship sails okay but maybe never makes port.

For me, personally, I have no desire to go swimming in the briny and if the powers that be think that keeping our sailing date quiet will keep my feet dry why its just okay with me.

There is one thing down here that sort of sets me back on my heels and that is the way everyone is crowded together at Halifax. Best way I can explain it is to say it sort of looks like the midway crowd at the Calgary Stampede. Seems that us fellows are just lucky having berths at barracks because finding a hotel room in this port is like looking for a needle in a haystack.

You folks out west, where a fellow sort of always has room to stretch, can realize just how tough this crowding must be, but maybe these easterners who have never seen the wide open spaces don't mind it.

As for me I just can't make out this old adage about "travel broadens one". All this hurry and bustle and shoving and pushing around is just about enough to keep a fellow as thin as a stall-walking horse.

But then there is one thing about it. I'll have plenty to talk about when the boys gather for a smoke after chow on the ranch, when I get back home again.

HEALTH

A HEALTH SERVICE OF
THE CANADIAN MEDICAL
ASSOCIATION AND LIFE
INSURANCE COMPANIES
IN CANADA

MILITARY PSYCHIATRY

Short intensive psychiatric training courses for physicians are very much in order, not only to meet the need of the armed forces for more psychiatrists but also for the tremendous post-war job in this field. Lieut. Col. William C. Menninger, Medical Corps, Army of the United States, neuropsychiatric consultant, Fourth Service Command, declares in The Journal of the American Medical Association.

"The second major concern confronting every physician, both in and out of the army," Colonel Menninger says, "is the number of psychiatric cases which the war experience has disclosed in our general population. The medical and social implications of this group are beyond our present ability to estimate."

"The third major problem confronting the army psychiatrist is the rapid and most effective disposition of these maladjusted in-

dividuals in the army. The first purpose of the army is to win the war, and consequently these soldiers unfit for service must be given over to the care of civilian agencies and civilian physicians with the hope that they will accept the responsibility and provide treatment for these men in accordance with our most modern psychiatric concepts."

The psychiatric problems of the army, Colonel Menninger explains, "should be of vital interest and concern to every citizen interested in the war effort and particularly to medical men. They should be of interest, first, because of the great number of men whose army experience has brought to light their need for medical and particularly psychiatric help. This fact may be vividly portrayed by these figures: an average of 8 to 10 per cent of men examined for military service are rejected for psychiatric reasons and nearly 30 per cent of the discharges from the army are for psychiatric reasons. In contrast, only 2 per cent of the medical profession are psychiatrists. The social implication of these figures is enormous, but their importance to the medical profession is even greater."

"Every internist is aware of the fact that even in normal circumstances in our prewar practice between 40 and 60 per cent of the patients seeking medical help present only functional disturbances." The colonel points out that, despite the lack of trained psychiatrists and the lack of facilities, the caliber of neuro-psychiatry practiced in the army is surprisingly good.

Hints for the Household

FUDGE WITHOUT COOKING

Is there a "good candy" shortage in your neighborhood? "Lucky you", if there isn't! But anyway, good home-made fudge is always appreciated and particularly during these hectic days. Here's a recipe for such a delicacy that may be made without cooking. Try it!

Uncooked Fudge

4 squares unsweetened chocolate; 3 tablespoons butter or margarine; 3 cups sifted confectioners' sugar; ¼ teaspoon salt; 1/3 cup hot milk; 1 teaspoon vanilla.

Melt chocolate and butter over boiling water. Remove from heat. Combine remaining ingredients and mix well. Add chocolate mixture and stir until blended. Spread in greased 8 x 8 x 2-inch pan. Chill in refrigerator or let stand at room temperature for several hours, or until firm.

Note: If desired, ½ to 2/3 cup chopped nut meats may be added before turning into pan.

LOW-SHORTENING BISCUITS

Bread may be the staff of life, but place a plate of bread and a plate of biscuits on the table and see which disappears first. A luscious biscuit must be the flag that flies from the staff.

Low-Shortening Biscuits

2 cups sifted cake flour; 2½ teaspoons double-acting baking powder; ¼ teaspoon salt; 2 tablespoons cold shortening; ¼ cup plus 1 tablespoon milk.

Sift flour once, measure, add baking powder and salt, and sift again. Cut shortening in small and knead gently 15 minutes. Roll

pieces, and add to flour. Cut in shortening, using pastry blender or finger tips, until mixture is as fine as meal.

Add milk all at once and stir carefully until all flour is dampened. Then stir quickly and lightly until mixture forms a soft dough and follows spoon around bowl. Turn out on lightly floured board ½ inch thick. Cut with floured 1½ inch biscuit cutter. Bake on lightly greased sheet in hot oven (450 F.) about 13 minutes. Do not over- or under-bake these biscuits. Makes 16 biscuits.

Note: For tall, soft biscuits, place close together on baking sheet; for biscuits with crusted sides, place slightly apart.

THIS WEEK'S STAR RECIPE

This recipe is a combination of flaked fish, egg, cereal and seasonings that will delight and surprise your guests. Be sure and try it before filling the recipe:

Fish Savories

3 cups Post Toasties, slightly crushed
1 cup flaked cooked white fish
¼ teaspoon salt
Dash of pepper
½ teaspoon scraped onion

1 egg, beaten with 4 tablespoons milk and dash of salt

Combine ½ Post Toasties, fish, salt, pepper, onion, and 5 tablespoons egg mixture, mixing well. Shape in 2-inch cakes. Roll in remaining flakes, then in remaining egg mixture, and roll again in flakes. Fry in skillet in small amount of fat, browning both sides. Serve with tartar sauce or lemon slices. Makes 6 small savories.

The insulting valentine of the

Gay Nineties has practically disappeared. So has the lacy beauty of grandmother's youth. Modern valentines—cards, flowers and candy—are still in vogue, but I cast my vote for edible valentines that one may sip or munch as he enjoys a jolly party in a friendly home. Here are some suggestions for those who agree with me:

HOT VALENTINE PUNCH

4 cups water
1 pound (4 cups) cranberries
2 cups boiling water
8 teaspoons tea
2 cups sugar
3 cups orange juice
1 cup lemon juice
2 quarts boiling water

Orange and lemon slices for garnish
Cook cranberries in 4 cups water until skins pop open. Strain through cheesecloth. Pour 2 cups boiling water over tea. Steep 5 minutes. Strain and add to hot cranberry juice. Dissolve sugar in the warm liquid. Add orange and lemon juices and the 2 quarts boiling water. Garnish with orange and lemon slices. Serve at once. Or if not quite hot enough, put back on fire and heat to just under boiling. Do not boil. This recipe makes 1 gallon of punch, enough for 16 large glasses or 32 small punch glasses. The cranberry juice gives a lovely red color to this punch. If cranberries are not available, use 2 extra cups of orange juice.

This punch with cookies, cake or sandwiches solves the problem of simple refreshments for the children's Valentine party, the 'teen-ager's dance or Mother's gathering of church or club friends.

Toasties Valentine Surprise

Use any red fruit-flavored gelatin (combinations of two or more fresh or canned fruits—raspberries, peaches, cherries, apricots, strawberries, blueberries, grapes, melons, etc., may be added) and chill until firm in individual heart-shaped molds. Unmould and place in the center of a large shallow cereal bowl of Post Toasties. Serve with cream or milk.
A novel dessert, easy, economi-

cal, particularly appropriate for a youngster's Valentine supper party.

WHEAT-MEAL COOKIES

4 tablespoons butter or other shortening
¼ cup sugar
1 egg, unbeaten
¼ cup milk
1 cup sifted flour
1 teaspoon double action baking powder
½ teaspoon salt
1/3 cup wheat-meal
½ cup chopped walnut meats
½ teaspoon vanilla

Cream butter thoroughly, add sugar gradually, and cream together until light and fluffy. Add egg and beat thoroughly; then milk and mix well. Sift flour once, measure, add baking powder and salt and sift again; mix in cereal. Add to creamed mixture, then add nuts and vanilla, mixing well. Drop from teaspoon on greased baking sheet. Bake in moderate oven (375 deg. F.) 12 to 15 minutes. Makes 2 dozen cookies.

NOTE: If desired, ¼ cup raisins may be added. A whole grain cookie that stores well. Include these cookies in a lunch box as a dessert with milk or fruit beverage.

VALENTINE RENNET-CUSTARD

2 cups milk (not canned)
1 package raspberry rennet powder
Red candy hearts

Set out 4 or 5 dessert dishes. Warm milk slowly, stirring constantly. Test a drop frequently on inside of wrist. When COMFORTABLY WARM (110 deg. F.) not hot, remove at once from heat. Stir rennet powder into milk briskly until dissolved, not over 1 minute. Pour at once, while still liquid, into the dessert glasses. Do not move until firm, about 10 minutes. Then chill in refrigerator. Just before serving, place candy hearts on top of the rennet-custards.

SPICED VALENTINE FROTH

1 cup evaporated milk
¼ teaspoon vanilla
Cinnamon
4 cups freshly made, hot decaffeinated coffee

Chill evaporated milk thoroughly. Then whip rapidly until stiff. Add vanilla. Place in serving cups, filling half full. Sprinkle with cinnamon. Fill cups with decaffeinated coffee. Makes 8 servings.

Iced Coffee Froth. Use freshly made, strong decaffeinated coffee. Serve in punch cups or tall glasses with cracked ice, filling glasses as directed above.

Remember, when making decaffeinated coffee in a percolator, to give it a little extra perking to bring out the rich coffee flavor. It's good hostess tactics to serve decaffeinated coffee, so that guests can relax taut nerves over extra cups without worrying over sleeping problems later on.

TROPICAL RHUBARB (Saucepan Method)

¼ cup sugar
¼ cup water
¼ teaspoon grated orange rind
1 box (14-oz.) quick-frozen rhubarb
1 orange, peeled and sliced
Place sugar, water and orange rind in saucepan and bring to a boil. Add rhubarb. Bring again to a boil, separating pieces with a fork; then boil gently 4 minutes. Add orange slices and continue boiling 1 minute longer.

NOTE: ½ cup corn syrup and ½ cup sugar may be used instead of all sugar in above recipe. Packed in one-inch lengths of cleaned, perfectly ripened, fine-flavored stalks, quick-frozen rhubarb is a star performer as a sauce as well as a favorite pie filling. Like all other quick-frozen fruits and vegetables it's a big time-saver because all the tasks of preparation are disposed of before Arctic cold seals in fresh flavor and vitamins, and it comes to you all ready to cook.

RECIPE FOR CRISP CURTAINS

If you soak dirty curtains in luke warm water for about 15 minutes before washing, you'll find dirt stains loosen up like magic. Another professional tip is to dissolve bluing flakes in your soap suds. You'll make sure of gleaming white curtains without any possibility of streaks and win a big time dividend by eliminating the need for a special bluing rinse. It's a good idea to dip all the curtains for one room in uniform stiffness. And you'll find a single batch of starch to insure that the secret of doing a professional looking ironing job is to add a quarter of a cake of a specially prepared wax-like product to each quart of light starch. This insures your iron against the dragging and sticking that cause fabric tears and saves a lot of time, too, because you can iron the curtains before they are completely dry.

The A.B.C. of Skin Care
Few of us possess naturally lovely skins, and even these must take precautions lest they suddenly lose so priceless a heritage. The task of nurturing your skin will be simplified if you know something of its functions.

Besides being a covering for the body, the skin acts as an outlet for certain secretions (perspiration, for instance, is a natural one). There are many impurities that lurk in the bloodstream may escape through these pores—resulting in spots.

If the system is functioning properly, there is far less likelihood of skin blemishes. Interior cleanliness is thus essential. Go easy on rich foods like pastries and sweets; eat more fresh fruits and vegetables.

Exterior cleanliness is also most important. The skin is composed of two main sections—the outer and the inner skin. The outer skin is necessary to thoroughly cleanse the skin to remove tiny particles of dead cuticle, as well as to wash away the dirt and grime.

The main rule of exterior cleansing is: Wash thoroughly. Lukewarm water is best, and soft water is preferable to hard. If the water is too hard, soften it by adding a touch of bran. Frequent washing with a good soap is important. I advise regular use of soothing palmolive soap, which cleanses thoroughly and helps to beautify the skin.

After thoroughly rinsing the skin, cleanse with Three-Purpose cream, a delightful cream that is a treat for the skin.

PLAN TO MAINTAIN HOG PRODUCTION

During

1944 and 1945

Every good quality hog that can be produced during the next two years will be needed.

The current bacon contract is for two years. It guarantees bacon prices and the delivery of 900 million pounds of bacon over the contract period. To help Britain maintain her present weekly ration of 4 oz. for each person Canada will try to deliver 600 million pounds of bacon this year.

IMPROVE QUALITY

Quality premiums of \$3.00 for each Grade A carcass and \$2.00 for each Grade B1 carcass have been authorized. They increase the net profit in hog production and emphasize the urgency of improving quality to protect the after-the-war position on the British market.

Hog Production is Profitable

After allowing reasonable feed allowances and liberal overhead charges to cover all possible costs the following net returns can now be expected from feed grains fed to hogs:

Wt. of Hog Live Lbs.	Selling Price per 100 lbs. dressed	Value of Hog	Quality Bonus B1 Grade	Returns per Hog	Returns for grain	Value of grain per 100 lbs.
200	\$15.00	22.50	2.00	24.50	17.50	1.75
200	15.50	23.25	2.00	25.25	18.25	1.83
200	16.00	24.00	2.00	26.00	19.00	1.90
200	16.50	24.75	2.00	26.75	19.75	1.98
200	17.00	25.50	2.00	27.50	20.50	2.05

Grade A hogs on which \$3.00 Quality Bonus is paid will return an additional 10c. per hundred for the grain used.

For further information consult your Provincial Department of Agriculture, Agricultural College, nearest Dominion Experimental Farm or Live Stock Office of the Dominion Department of Agriculture.

Dominion Department of Agriculture, Ottawa
Honourable James G. Gardiner, Minister

WE MUST HOLD THE LINE!

On the home front the battle against inflation is now the most critical of all.

The winning of this battle will contribute much to winning the war.

It will contribute more than all else towards the solution of post-war problems.

The purpose of Price Control is to prevent inflation. Its purpose is to protect and maintain a basic standard of living.

A higher money income will not be of any advantage if, because prices are going up, our money buys less and less.

To win the battle against unemployment in the post-war period, we must first of all win the battle against inflation.

Salaries and wages are a large element, often the largest element, in the cost of everything we buy.

If the Price Ceiling breaks down, in the long run all stand to lose.

We must hold the line against inflation to assure victory in war.

We must hold the line to provide a solid foundation on which, after the war, to build a greater and a better Canada.

W. L. Mackenzie King

EDGERTON

The 131st. Victory Wheel draw
was won by Mrs. W.T. Hays with
No. 15.

Sgt. Worthy Darling of the R.C.
A.P. arrived home early Monday
morning after being overseas two
and a half years. He is enjoying a
long leave prior to re-joining his
Unit.

Skip P.S. Pawsey and his rink of
Curlers returned from Edmonton
Friday where they had been to
take part in the Northern Alberta
Bonspiel. They report good curling
but were not lucky enough to
bring back any jewelry.

Quite a gloom was cast over the
Bloomington Valley district when
word was received Wednesday of
the death in a city hospital of
Joyce the little daughter of Mr. and
Mrs. Cliff Tunney. The remains
were brought to Edgerton and the
funeral took place in Provost Valley
Cemetery Saturday. The Rev. R.
Clegg officiating. The many floral
tributes expressed the sympathy
that is felt for the parents and
family.

The lady curlers had a one day
bonspiel Wednesday. Two rinks
were here from Chauvin skipped
by Mrs. Buckle and Helene Saker.
The visitors took home the Second-
ary award and Mrs. H.R. Brown's
rink won the First.

The local hockey boys journeyed to
Wainwright Wednesday. They had
a good game but had to be satisfied
with defeat. They were transported
by Mr. A. E. Challenger and Rev.
A. A. Court.

Mrs. Lena Etson left Thursday
for a visit to her brother in Port-
land, Michigan. She expects to be
away for about a couple of months.
This is quite a long trip for her to
take alone.

Percy Wolff was here last week
taking back a bunch of hogs with
him.

Mrs. McKay of Provost is visit-
ing with her son and daughter-in-
law, Mr. and Mrs. Bob McKay.

Mrs. N. Miles and children re-
turned from the city Friday.

Geo. Sawyer was a city business
visitor.

Bob Tunney and his mother of
New Westminster is visiting the
Cliff Tunney home.

Ralph Challenger was a city
visitor.

Happy Montgomery was a visit-
or to the city to see his wife who
is still in hospital there.

Mr. E. C. Fisher, Salvage Organ-
izer for this part of the Province
was here Saturday checking over
the salvage activities.

St. Mary's W.A. was held at the
home of Mrs. R.C. Reed, two new
members joined.

Trucks are busy travelling the
township-line road from the high-
way into Heath, which will make
this a good road in all weather be-
tween Heath and Wainwright.

Mr. and Mrs. Eric Harley are
now living in Heath. Marian is at-
tending the Heath school.

The Lake District Telephone
company held their annual meeting
in Wainwright on Saturday last.
Mrs. T. Withnell was elected pres-
ident and H. C. Mockford secretary
treasurer.

The Heath hockey team lost the
game to Sligo last Saturday.

A number of people in the dis-
trict are still suffering from flu
and several of the children have
been seriously ill.

The death of Mr. Harry Holds-
worth an old time resident of
Heath was reported from the coast
this week.

GERALD

Farm Forum meetings have been
held recently at the home of Mr.
and Mrs. L. Myggland, Mr. and
Mrs. E. Gullekson, and Mr. and Mrs. R.
Campbell.

Mr. F. Perkins, who have been in
the Wainwright hospital for the
past three weeks, returned home
on Saturday.

The Mission Band met on Wed-
nesday at the home of Mrs. R.
Campbell. Clara Campbell presid-
ed.

WHITE CLOUD

The annual school meeting was
held Thursday with Mr. E. Knott
being in for another term.

Keith Babb returned from Cal-
gary Saturday last, the second med-
ical exam passed him up.

We hear that the boxes which
were sent overseas at Christmas
to our soldier boys came in very
handy.

Mr. and Mrs. Allan Treffry spent
Sunday at the home of Mr. and
Mrs. V. Treffry.

We are sorry to hear that Mr. J.
Reid has a sore foot and hope this
gets better soon.

Miss Currie spent Monday even-
ing visiting at the home of Miss
Lorna Reid.

Savings Stamp Drive. Our staff will
be asking you to purchase War
Savings Stamps with your order.
Every quarter invested in this way
is a quarter saved and one more
step in helping to hasten their vic-
torious home coming. Help our staff
to help the Food Industry sell eight
million stamps this month.

More FOOD NEEDED As Victory Draws Nearer

As the United Nations invade the Axis-dominated countries, famished
populations as well as our fighting forces must be fed. The need, for
food increases as victory draws nearer.

Canadian farmers are confronted with a heavy task,
which may be made easier through the use of bank
credit. The Bank of Montreal stands ready to make
every reasonable loan which will promote an in-
crease in food production in the world emergency.

If you need to borrow to improve your production of food, do not hesi-
tate to talk with our nearest branch manager.
